

LSPS Virtual Course Catalog 2021/22

In the event that LSPS is unable to staff virtual course offerings, we will contract with the third party vendors below. Virtual offerings are expanded to address the concerns parents have with the return to school buildings while COVID-19 is a public health concern.

Elementary (Masonic Heights, Rodgers Elementary, Violet Elementary)

Elementary virtual is not available on a course-by-course basis, but on a grade level basis with the four core curriculum areas and choice of two specials courses. We will be using Edgenuity as our 3rd party provider. They will provide a Michigan certified teacher of record, and LSPS will provide a mentor that will complete two-way communication requirements with parents, as well as synchronous connections and activities with students.
